## **Upscaling in Porous Media A tribute to Michel Quintard**

**April 15 -16, 2019**

ENSAM (*Amphitheater La Rochefoucauld Liancourt*)  
Esplanade des Arts et Métiers  
33405 TALENCE

This workshop is the opportunity to share advances in upscaling and characterization of transport phenomena in porous media over a wide variety of applications.

Invited talks include contributions from international and French experts in porous media systems.
